Mr. Marc Bachman:

Please tell your team at Bachman's Inc. THANK YOU for outstanding design work, completing an efficient installation, and professional and friendly support of our H.V.A.C. project at Green Bay Packaging, Inc. Cincinnati Division. From the beginning of the turnkey installation to start-up and balance, your team exceeded our expectations.

What I found most remarkable was how your team responded following the cannibalization of our rooftop units by villains seeking to cash-in on the scrap metal market. We thought surely we were in for a long, cold winter. Your team had us operational within one business day, which is absolutely incredible considering the work required. We look forward to a lasting business relationship.

Sincerely,

Craig Erickson
